

### Worksheet 3: Layout sheets for “Wrinkle in Time” game board

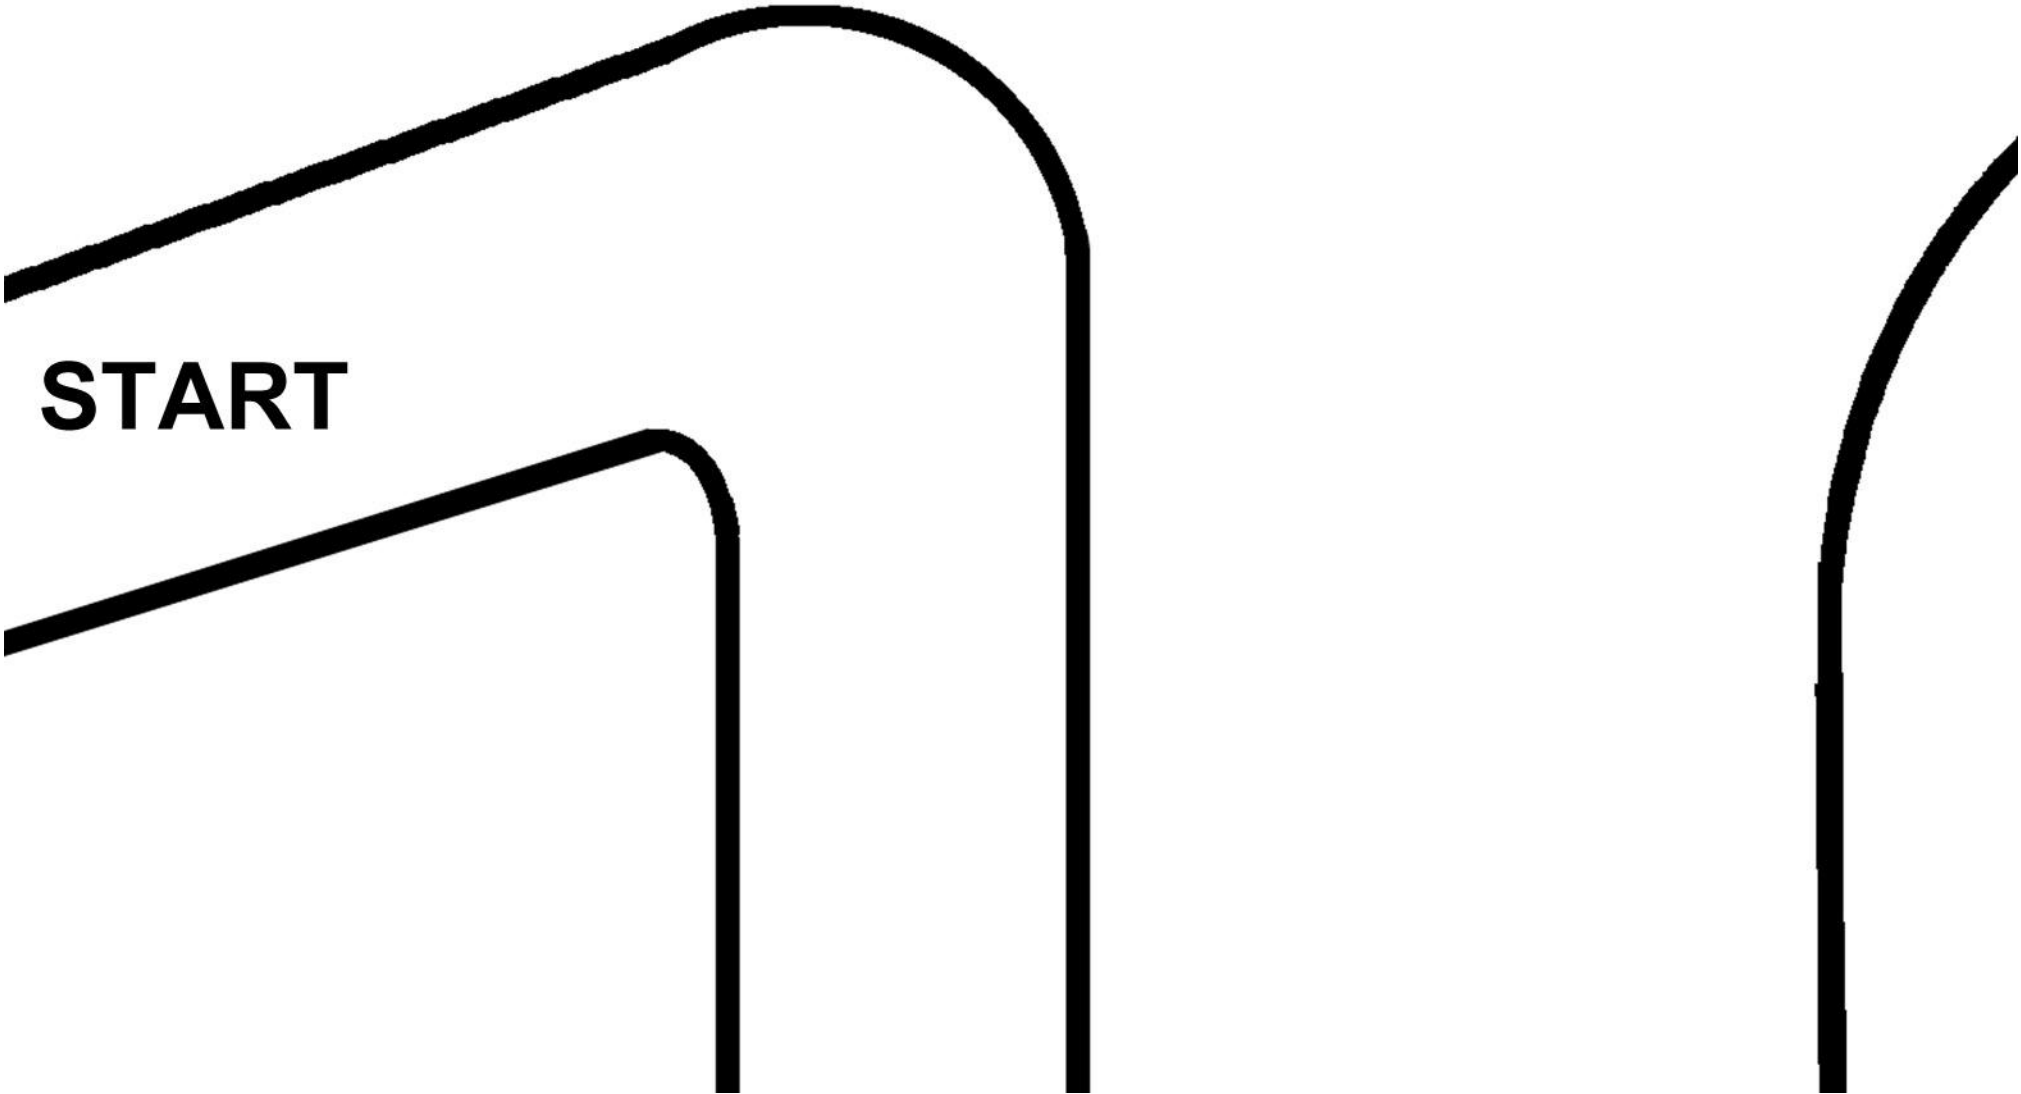

Pages consist of:

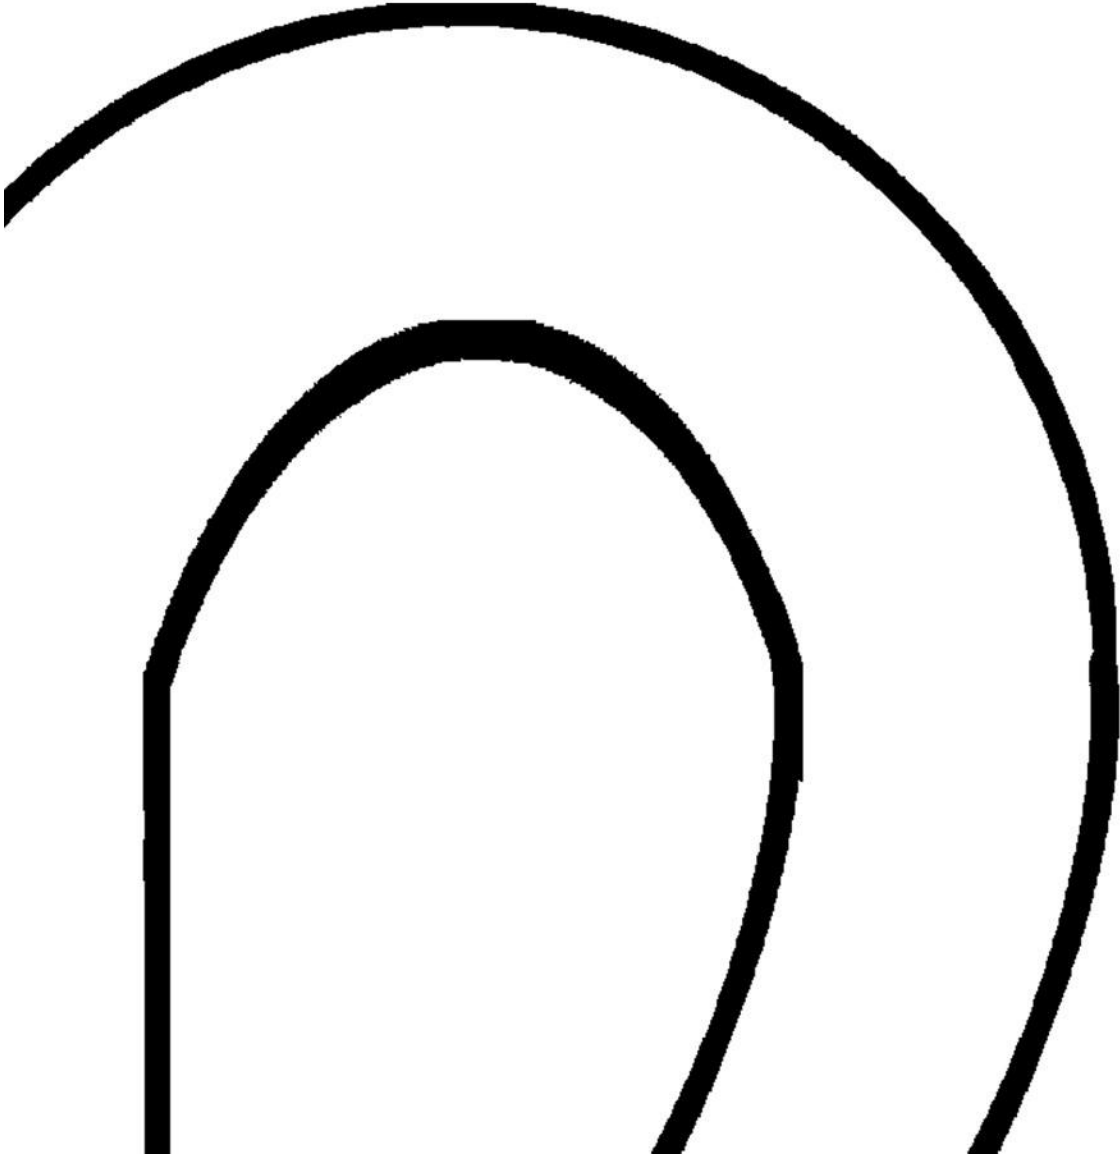

1. Diagram with instructions
2. The four panels that, when assembled, become the game board
3. A sheet for (blank) playing cards that can be printed multiple times
4. A sheet of location markers

Working in their small groups, students should decide what physical spaces to represent on the game board. ([Worksheet 2](#) will help organize the task). Provide students time, space, and materials to produce sturdy and large boards.
